ThinkTank

The aim of the Workshop «**Ready for the new normal!**» is to present design options for a resilient and sustainable living space from a transdisciplinary perspective*. Buildings and neighbourhoods that respond to changing needs can evolve and provide a high quality of life for future generations as an open system.

"Ready for the new normal!"
Prof. Dr. Peter Schwehr

Objectives

I.
Introduction
Postanthropocene
Responsibility (1)

Mo 14.10.2024

Facts & Figures
